MASTER TRANSCRIPT SUMMARIES

AND SOURCE-CONTROLLED DEMONSTRATION CLIPS

People v. Marcus Hale

Superior Court of California, County of Lassen | Case No. 26CR00412

SYNTHETIC DEMONSTRATION MEDIA - NOT CASE EVIDENCE

3 simulated records | 3 linked synthetic media clips

Prepared by Robert van der Vijver | VdVLaw

Fictional demonstration matter. The case, people, media, transcript-style summaries, order identifiers, and clip metadata on the following pages are created solely to demonstrate the workflow.

Version 2.1 (October 15, 2026): identical to v2.0 except for one sentence in the How to Use box, which no longer names other matters.

How to Use This Demonstration Volume

This miniature volume uses the VdVLaw navigation and source-control structure for media volumes: a compact index, a record-level summary, an OPEN AUDIO/VIDEO control, a small adjacent QR code, and source timing for each clip.

Clickable index	Select a record/page entry to move through the volume.
Clip access	Select the blue OPEN AUDIO CLIP or OPEN VIDEO CLIP control. The adjacent QR code opens the same browser-play clip.
Source timing	Each card preserves the demonstration source filename, exact clip range, and media duration.
Source control	The synthetic MP3/MP4 file controls over every written summary in this demonstration.
Public demo check	Before seminar use, set Dropbox access to Anyone with the link / Can view. Attendees can then scan and play the clip in a phone browser without the Dropbox app.

Demonstration Disclosure

The labels below simulate the kinds of fields and suggested-clip information received in a workflow. They are intentionally fictionalized and were not generated, transcribed, or verified. The clips themselves are synthetic and contain no real case evidence.

The Hale case package itself treats working transcripts and media indexes as navigation aids unless verified against original media. This demonstration preserves that same source-control principle.

Clickable Master Index

Three simulated records, one linked demonstration clip per record.

Order	Source file	Entries	Status	Page
DEMO-TC0000000001	HALE_DEMO_AUDIO_01_PreVisit_Call.mp3	1	DEMO AUDIO CLIP	4
DEMO-TC0000000002	HALE_DEMO_AUDIO_02_Dispatch_Response.mp3	1	DEMO AUDIO CLIP	5
DEMO-TC0000000003	HALE_DEMO_VIDEO_01_Corridor_Animation.mp4	1	DEMO VIDEO CLIP	6

Inventory reconciliation: 3 demonstration records | 2 MP3 audio clips | 1 MP4 video clip | all three synthetic.

RECORD 01 | DEMO-TC0000000001

Source file	HALE_DEMO_AUDIO_01_PreVisit_Call.mp3
Demonstration status	TRANSCRIPT-STYLE SUMMARY READY WITH 1 SUGGESTED AUDIO CLIP
Suggested entries	1
Media duration	17.084 seconds

FICTIONAL REV-STYLE MATERIAL - NAVIGATION ONLY - SYNTHETIC MEDIA CONTROLS

DEMO ENTRY 1 | AUDIO CLIP 01 | 0:17

Pre-Visit Symptoms and Home Monitor Reading

Simulated description - not independently verified: A pre-visit call reflects Renee reporting dizziness, palpitations, nausea, and a home monitor reading. Marcus suggests getting checked if the symptoms continue.

Demonstration order: DEMO-TC0000000001

Source filename: HALE_DEMO_AUDIO_01_PreVisit_Call.mp3

Exact source range: 0.000-17.084 seconds

Clip duration: 17.084 seconds

Source-control note: This file is synthetic demonstration media. The media file controls over the simulated summary; nothing in this card is evidence from an actual matter.

OPEN AUDIO CLIP Browser-play link (Dropbox, view access): https://www.dropbox.com/scl/fi/eqy4ema1l95y0te59vu5n/HALE_DEMO_AUDIO_01_PreVisit_Call.mp3?rlkey=8gr9utd0ugzk42lbkw6vpnfs6&dl=0	

What this demonstration shows

- Synthetic spoken demonstration created for the Hale portfolio.
- Illustrates how an AI suggested-clip email could become a source-controlled audio entry.
- Not a transcript, recording, or fact from any real case.

QR/link note: the QR code and blue control use the same browser-play link. No Dropbox app is required.

RECORD 02 | DEMO-TC0000000002

Source file	HALE_DEMO_AUDIO_02_Dispatch_Response.mp3
Demonstration status	TRANSCRIPT-STYLE SUMMARY READY WITH 1 SUGGESTED AUDIO CLIP
Suggested entries	1
Media duration	7.680 seconds

FICTIONAL REV-STYLE MATERIAL - NAVIGATION ONLY - SYNTHETIC MEDIA CONTROLS

DEMO ENTRY 1 | AUDIO CLIP 02 | 0:08

Dispatch Response to Family Visiting Unit 3

Simulated description - not independently verified: Dispatch traffic directs a medical response to Family Visiting Unit 3 for an adult visitor reporting dizziness and chest discomfort.

Demonstration order: DEMO-TC0000000002

Source filename: HALE_DEMO_AUDIO_02_Dispatch_Response.mp3

Exact source range: 0.000-7.680 seconds

Clip duration: 7.680 seconds

Source-control note: This file is synthetic demonstration media. The media file controls over the simulated summary; nothing in this card is evidence from an actual matter.

OPEN AUDIO CLIP Browser-play link (Dropbox, view access): https://www.dropbox.com/scl/fi/yh7kuioiem36ij2vjrrg4/HALE_DEMO_AUDIO_02_Dispatch_Response.mp3?rlkey=pf3qp608s1ynv1lmtekjs4xaf&dl=0	

What this demonstration shows

- Synthetic dispatch-style audio created only for demonstration.
- Shows a second source type with a separate file, clip description, link, QR code, and duration.
- No real agency transmission or responder voice is reproduced.

QR/link note: the QR code and blue control use the same browser-play link. No Dropbox app is required.

RECORD 03 | DEMO-TC0000000003

Source file	HALE_DEMO_VIDEO_01_Corridor_Animation.mp4
Demonstration status	TRANSCRIPT-STYLE SUMMARY READY WITH 1 SUGGESTED VIDEO CLIP
Suggested entries	1
Media duration	14.000 seconds

FICTIONAL REV-STYLE MATERIAL - NAVIGATION ONLY - SYNTHETIC MEDIA CONTROLS

DEMO ENTRY 1 | VIDEO CLIP 03 | 0:14

Corridor Response Sequence - Animated Demonstration

Simulated description - not independently verified: An intentionally simple animated corridor view depicts responder arrival and movement near the family-visiting area during the fictional medical-response sequence.

Demonstration order: DEMO-TC0000000003

Source filename: HALE_DEMO_VIDEO_01_Corridor_Animation.mp4

Exact source range: 0.000-14.000 seconds

Clip duration: 14.000 seconds

Source-control note: This file is synthetic demonstration media. The media file controls over the simulated summary; nothing in this card is evidence from an actual matter.

What this demonstration shows

- Synthetic animation, deliberately non-photorealistic.
- Demonstrates the same linked-media workflow for video as for audio.
- Does not recreate or depict any actual person, institution, or event.

QR/link note: the QR code and blue control use the same browser-play link. No Dropbox app is required.
